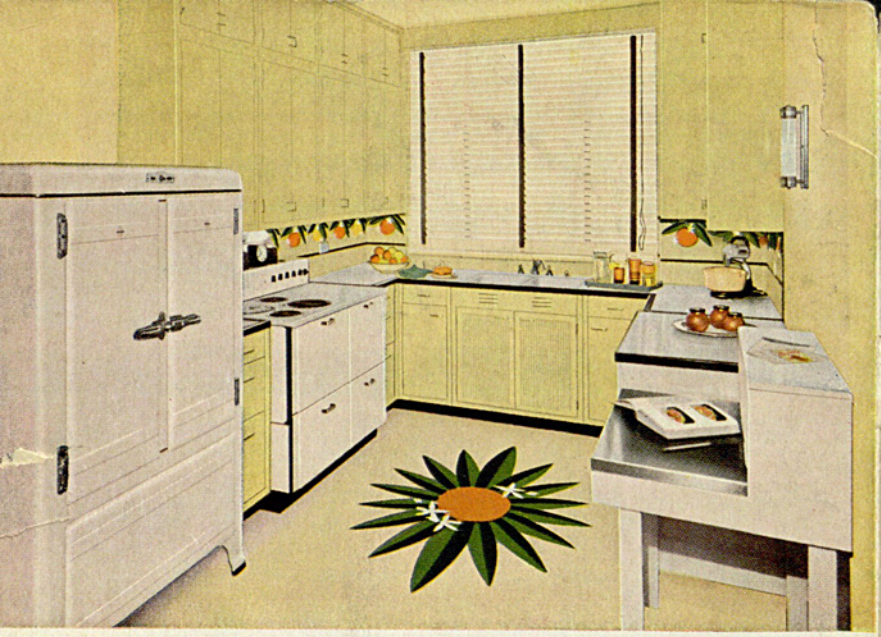
SUNKIST RECIPES

for Every Day



The New Sunkist Kitchen

The new Sunkist Building at Los Angeles houses a model recipe and diet kitchen. As can be seen from the illustration above, it is compact and complete to the last detail of design and equipment.

The primary function of this new feature in Sunkist food service is the origination and testing of Sunkist orange and lemon recipes for practical every day use in the home. Even the simple ten minute salads and five minute desserts, which Sunkist has made famous, are tested carefully for flavor balance. Fresh citrus fruit recipes are delicious to eat and in addition they supply all four of the now-known protective food essentials necessary for a balanced diet.

The Sunkist kitchen is your assurance that orange and lemon recipes released by the growers of this internationally known brand of fresh citrus fruits will give you complete satisfaction.

Food value of Citrus Fruits

ORANGES and lemons are valuable and necessary parts of the well-balanced diet because:

Lazy Daisy Salad

1. They aid digestion.
2. They supply vital food elements that counteract tooth decay and gum troubles.
3. They prevent and correct acidosis.
4. They promote the retention of calcium and phosphorus.
5. They furnish laxative bulk of the best type.
6. They stimulate growth in children.

These beneficial results are partially due to the fact that oranges and lemons contribute to the diet:

1. *Vitamins:* The protective food elements necessary for health and proper growth. These fruits contain Vitamins A, B and C, being particularly rich in Vitamin C. This vitamin is readily destroyed by heat in cooked foods. Oranges, lemons and grapefruit supply it in an uncooked and easily secured form. Because Vitamin C cannot be stored in the body, some food containing it should be eaten daily.
2. *Alkaline Salts:* Which leave an alkaline-ash in the process of digestion. They are valuable in balancing the acid of other good and necessary but acid-ash foods, such as meats, eggs, fish, fowl, breads and cereals.
3. *Minerals:* That build strong bones and teeth, rich blood, nerve tissue and help to regulate the body. Oranges contain calcium, phosphorus and iron.
4. *Fruit Sugar:* Furnishing quick energy. A large orange will supply 100 calories. The sugar in an orange is very easily digested and oranges furnish a healthful form of sweets for between-meal lunches.
5. *Fruit Acids:* These give oranges and lemons their delicious, refreshing flavor and stimulate the appetite. Thus they also aid digestion and are slightly laxative in effect.
6. *Cellulose:* Cellulose is valuable for its laxative effect.
7. *Water:* Mother Nature has bottled pure water in oranges, lemons and grapefruit in germ-proof containers. Fresh fruit drinks made from these fruits are better than artificial beverages.

Preparation of Fruit

PREPARATION OF ORANGES FOR SALAD AND DESSERT USES

SUNKIST oranges have special value for salad and dessert uses. In addition to excellence of flavor, they are practically free from seeds and have a firm meat, easy to prepare in the slices and segments used for these dishes. Large or medium size fruit segments well, small fruit slices better.

Segments: With a sharp knife, peel down to juicy meat, removing all outer skin and membrane. Cut on either side of each dividing membrane and remove meat, segment by segment.

Slices: Peel fruit down to juicy pulp. Cut in thin, even slices. Slices may be halved or quartered for easier handling.

Pieces: Cut segments or slices in pieces.

Shells: Attractive baskets for the serving of fruit cups, salads and desserts are also made from the clean, waxy-textured skins of Sunkist oranges. . . (See directions, page 21.)

Note: Save any escaping juice in preparing segments or slices and use for salad dressings and marinades. . . (See pages 24-25.)

JUICE PREPARATION

See Orange Juice, page 26.

BREAKFAST PREPARATION

Arrange Sunkist orange slices or segments on plates in attractive design, sweetening, if desired, with honey or maple syrup.

FLAVOR USES OF PEEL

Grated orange and lemon rind are used by the best cooks to flavor cakes, pies, breads, desserts, frostings, fillings and sauces, being preferred for flavor and economy to commercially prepared extracts.

In grating, only the yellow portion of the rind should be removed. This yellow portion contains the oil cells from which come the oils that give flavor.

Sunkist oranges and lemons have clean skins of waxy texture, especially suited for grated rind and ground peel.

Grated Peels: Grate only the yellow portion. Use fresh or mix with sugar and keep in a tightly covered jar.

Ground Peels: The whole peel may be ground fine and used like grated rind.

Candied Peels: See page 8.

Appetizers

FRESH fruits, especially oranges and lemons, stimulate appetite and are thus excellent for first course service. They may take the form of cocktails, fruit cups, appetizer salads, or the popular service of hors d'oeuvres.

ORANGE JUICE WITH OTHER FRUITS

For a quickly prepared appetizer or dessert, serve Sunkist orange juice over one of these fruits: Sunkist grapefruit segments, sliced bananas or peaches, strawberries, raspberries or melon balls. Sweeten or not as desired. The orange juice may replace cream and, unsweetened, it is especially recommended in reducing diets for this use.

Jellies

ORANGE and lemon marmalades, jellies, jams, candied peels and confections are wholesome sweets and should be liberally included in the diet, especially for children.

For recipes using peel, choose fruit with bright, clean skins, such as Sunkist oranges, lemons and grapefruit.

SANDWICH SUGGESTIONS

Sunkist Lemon Juice is an important flavoring ingredient in meat, fish, egg and other sandwich fillings, where added tartness and liquid are desired. Moisten filling with lemon juice to taste or use Lemon Butter (see directions for making, page 43), to spread bread before filling is added.

Sunkist Orange Juice combines especially well with dried fruits, such as chopped raisins, figs, dates and with chopped nuts to make flavorful fillings.

The following fillings will give suggestions for many others using Sunkist orange and lemon juice:

Orange Cheese Filling: Combine 1 part Sunkist orange juice with 2 parts cream cheese; blend thoroughly.

Orange Marmalade Fillings: Spread one slice of sandwich with Orange Marmalade (see recipe, page 10), one slice with cottage cheese, with cream cheese or with peanut butter. Toast sandwiches if desired.

Shrimp Butter: Combine 1 cup butter and 1 cup cooked shrimps pounded soft. Season with salt and cayenne to taste and moisten with ¼ cup Sunkist lemon juice.

Tuna Salad Sandwich Filling: Combine 1 small can white meat tuna, minced; ½ cup finely chopped celery; 1 bell pepper, minced; 2 tablespoons Sunkist lemon juice; and mayonnaise to spread.

FRUIT CARAMELS

Put through food chopper:

1 cup figs
1 cup seeded raisins
1 cup stoned dates
1 cup walnut meats
½ cup Candied Orange Peel

Moisten with:

2 to 4 tablespoons Sunkist orange juice

until of right consistency to make into small balls. Roll in powdered sugar.

CANDIED ORANGE PEEL

Remove peel in quarters from 3 Sunkist oranges. Cover with water to which 1 teaspoon salt has been added. Boil 30 minutes. Drain. Boil in fresh water until tender, about ½ hour longer. Drain. Bring 1 cup sugar and ½ cup water to boil. Add peel. Boil gently until syrup is nearly absorbed. Drain. Roll in sugar. Use for confection (cut in strips) or for cooking (see Cooking Uses, page 9).

Candied Lemon and Grapefruit Peel: Substitute peel from 2 Sunkist grapefruit or 4 Sunkist lemons for orange. Cook in several fresh waters to remove bitterness from peel.

Colored Peel: Add red or green vegetable coloring to syrup, or roll strips in colored sugar.

Spiced Peel: Add a little cinnamon, clove or ginger to syrup. Tie spices in cloth to prevent darkening peel.

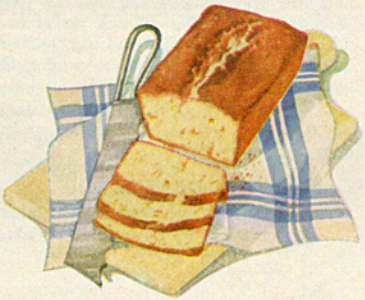
Chocolate Peel: Coat with melted dipping chocolate.

Marmalades and Confections

COOKING USES OF CANDIED PEEL AND MARMALADE

Candied Peel: Use *strips* to decorate cakes and pies. Or *cut in bits* and use to flavor cakes, pies, puddings, breads.

Marmalade: Use to flavor cakes, pies, breads, puddings, frostings, fillings, sauces; to spread on quick breads, toast, waffles, sandwiches; as filling for cakes or pies; as sundae sauce for ice cream; as pudding sauce; as meat accompaniment.



Orange Bread

FRUIT PASTE

Cook for 20 minutes, stirring often:

¾ cup ground whole Sunkist oranges
½ cup Sunkist orange juice
2½ cups fruit pulp with its juice: apple sauce, stewed apricots or peaches (dried or fresh)

Add and cook 15 to 20 minutes longer, stirring constantly:

½ cup liquid pectin
½ cup light corn syrup
2 cups sugar

When mixture is consistency of a thick preserve, pour 1 inch deep into a shallow pan. When cold cut into desired shapes. Roll in powdered sugar.

ORANGE FONDANTS

Cook to a soft ball when tried in cold water:

⅔ cup Sunkist orange juice
½ cup evaporated milk
3 cups sugar
¼ cup butter

Pour onto a buttered platter and cool until mixture retains a dent made by the finger. Stir with a spatula or large spoon until smooth and creamy. Roll into balls, varying as follows:

Orange Nut Creams: Top balls with walnut halves.

Orange Cream Dates: Stuff stoned dates with balls.

Orange Creams: Top balls with strips of Candied Orange Peel.

Chocolate Orange Creams: Coat balls with melted dipping chocolate.

Orange Coconut Creams: Make balls of fondant mixed with coconut.

BITTER ORANGE MARMALADE

(Makes 6-8 glasses)

1 Sunkist grapefruit
2 Sunkist oranges
1 Sunkist lemon
¼ cup Sunkist lemon juice

Slice unpeeled fruit very thin. Add three times as much water as fruit. Boil 20 minutes. Measure. Bring to boiling point. Add ¾ cup sugar for each cup of fruit. Boil 25 minutes or until it gives the jelly test. Just before removing from fire add ¼ cup lemon juice. Pour into sterilized glasses; cover with paraffin when cold.

ORANGE MARMALADE

(Makes 12-18 glasses)

4 medium sized (or 3 large) unpeeled Sunkist oranges, halved and sliced thin
4 unpeeled Sunkist lemons, sliced thin

Measure fruit and add five times as much cold water. Any time during next 24 hours boil hard for 50 to 60 minutes. This should reduce quantity one-half.

Measure into 2 or 4 cup lots. Cooking 4 cups or less at one time gives a better flavor and color. If oranges were rather sweet, add additional lemon juice at this stage—about 1 tablespoon to 1 cup of fruit. Bring to boiling point. Boil 8 minutes. Add ¾ cup sugar for each cup of fruit.

Boil the first lot rapidly until it gives the jelly test of thick reluctant drops from the side of the spoon—not more than 10 minutes. If longer time is required, boil next lot correspondingly longer before sugar is added. Pour into sterilized glasses. Cover with paraffin when cold.

Causes for variation: Sweetness or tartness of fruit and ripeness of fruit cause variation. Fruit is richer in pectin when first ripe, needs less cooking and will, therefore, produce the maximum number of glasses. Variations in clearness of finished product are due chiefly to this fact. The shorter the time, the clearer and more delicate the jelly. Time of cooking and size and shape of cooking vessel also cause variation.

Recooking of marmalade tends to darken and to make the flavor strong. If it does not quite jelly on first cooking, stand in sunshine, without paraffin, for 24 to 36 hours.

LEMON CURD OR CHEESE

(Makes 1 pint or 3 glasses)

6 eggs, well beaten
2 cups sugar
½ cup Sunkist lemon juice
¼ cup butter

Cook over hot water until thick. Pour into sterilized glasses. Use for filling for tarts or cakes or as a spread for toast and hot biscuits.

ORANGE JELLY AND MARMALADE

(Makes about 4 glasses jelly and 2 glasses marmalade)

2 unpeeled Sunkist oranges
1 unpeeled Sunkist lemon

Slice fruit very thin. Measure and for each cup allow 4 cups water. Bring to boil. Boil 30 minutes.

For Jelly: Strain off 4 cups of clear juice. Bring this juice to boil. Add ¾ cup sugar for each cup juice. Boil hard until it gives the jelly test of thick sheet-like drops from the side of the spoon. Pour into sterilized glasses. Cover with paraffin when cold.

For Marmalade: Take remaining fruit and liquid, add ¾ cup sugar for each cup and proceed as when making jelly.

Note: This makes a thick marmalade with much orange peel and is especially good for cooking purposes where the marmalade is used for flavor.

If marmalade is *not desired*, strain off all clear juice after first boiling and make into jelly.

QUICK ORANGE JAM

(Makes 2 glasses)

2 cups Sunkist orange pulp and juice
1 Sunkist lemon, pulp and juice
1½ cups sugar

Boil quickly about 10 minutes or until syrupy and clear.

Baked Oranges

BAKED WHOLE ORANGES I

(Without Syrup)

Filling: Crowd into each orange 1 teaspoon butter and 1 tablespoon sugar.

Method of Baking: Bake in a closely covered baking dish (glass or earthenware is best), filled two-thirds full of water, about 1½ hours in moderate oven (375° F.). Time will depend on size of oranges.

Sauce: Add 1 tablespoon cornstarch and ¼ cup orange juice to each ¾ cup remaining liquid. Heat and stir until thickened.

BAKED ORANGE SLICES

(Serves 6-8)

3 Sunkist oranges

Slightly grate skin of whole oranges. Boil 30 minutes. Cool. Cut into ½-inch slices. Lay these in bottom of baking dish. On each put 1 teaspoon sugar and ¼ teaspoon butter. (With Syrup)
(Serves 6-8)

6 to 8 Sunkist oranges

Method of Baking: Cover oranges with a syrup of 2 parts water to 1 part sugar. Bake closely covered at a moderate temperature (375° F.) 1½ to 3 hours, depending upon desired color of product. (Longer baking gives a darker fruit and one more like a preserve, with a thicker syrup.) If oranges are not completely covered by syrup, baste frequently. Serve with or without

Sauce: Of remaining syrup.

Variations: Color syrup red.

Flavor syrup with maple.

Flavor syrup with spice.

Stick oranges with cloves before baking.

Garnishes and

LEMON garnishes are standard accompaniments, lending flavor and decoration to many foods.

These garnishes may be plain or decorative *slices* or the more practical . . . juice-providing *quarters*, *halves* or *baskets*.

For a reducing diet, use the lemon juice provided by a Sunkist lemon garnish in place of rich sauces for meats and vegetables.

Serve garnishes with:

Beverages (Hot or cold tea, fruit punches.)

Clear Soup.

Fruit Juice Cocktails (Prune, pineapple or tomato juice.)

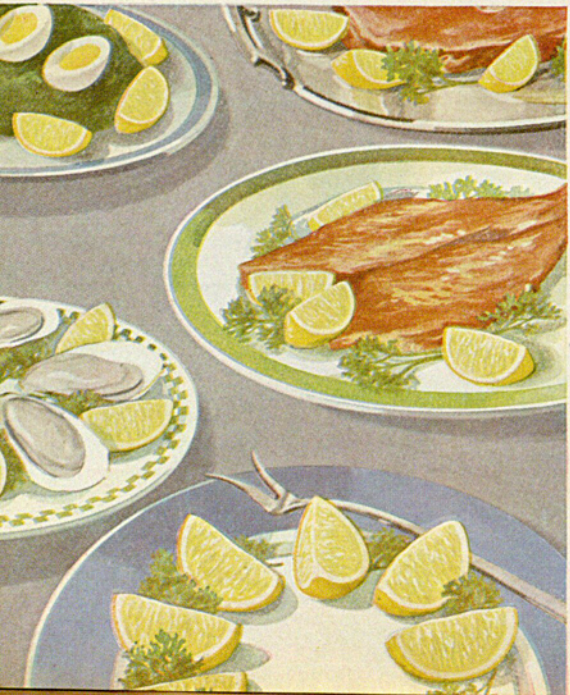
Fruits (Casaba or honey dew melons, avocados.)

Fish (Shell-fish, such as oysters, clams, scallops, shrimps, on half shell, in cocktails or salads, or fried; or any cooked fish.)

Meats (Hot steaks or chops; cold, sliced meats.)

Vegetables (Spinach and greens of all kinds, carrots, beets or other cooked vegetables.)

Salads (Sea-food or meat salads.)



California Sunkist lemons and oranges are particularly suited for garnish purposes because they have clean, thin skins of high color and waxy texture, are easy to slice, practically seedless, of fine flavor and heavy juice content.

The quarters pictured here, and the decorative designs pictured on page 13, are easily copied with the use of a sharp knife or scissors. To heighten effect, the lemon may be itself garnished with chopped mint, pimiento strips, paprika or parsley

Sauces

SUNKIST ORANGE GARNISHES

Select Entrees &

AS FLAVOR accompaniments, oranges and lemons offer many possibilities for entrees and main course dishes. In addition they provide dietetic balance for the meats, fish and fowl served in these courses.

FISH WITH LEMON

Fish with lemon is a standard food combination, desirable both for flavor and dietetic balance. The lemon may be served as:

Beets with Lemon-Orange Dressing: Cover 8 small or 6 medium sized beets boiled and sliced thin, with 1 tablespoon sugar to which has been added juice of 2 Sunkist oranges and of 2 small Sunkist lemons.

New Potatoes with Lemon: Boil 18 medium sized new potatoes, drain. Add ¼ cup Sunkist lemon juice to 3 tablespoons browned butter. Pour over potatoes.

Salad Dressings

THE delicate and appetizing flavor and food value of lemon juice make it the preferred source of tartness for salad dressings of all types . . . marinades, cooked dressings, French dressings and mayonnaise. It brings out the hidden flavors of salad ingredients and adds the element of freshness . . . which gives superiority to "made-at-home" dressings.

Orange juice is also used to heighten flavor in many salad dressings.

Fresh Fruit

THE breakfast glass of orange juice has now become a national health habit, while other meals and social events have their own citrus fruit beverages. *Freshly extracted* orange and lemon juices furnish fruit acids needed for flavor in many drinks, together with essential vitamins and minerals of dietetic importance.

ORANGE JUICE

Orange juice should always be served fresh since flavor is lost when juice stands. Use a mechanical or electrical extractor, or a good hand reamer. (See back cover.) Strain or not as preferred. Chill if desired. An excellent way to do this is first to chill fruit in ice-box. This prevents loss of flavor from ice dilution. Serve juice in an 8-ounce glass (a good-sized glass, holding a measuring cupful of juice).

ORANGE-LEMON JUICE

For a beverage of increased flavor, add juice of ½ Sunkist lemon to a glass of Sunkist orange juice.

As a result of recent research, foremost authorities now recommend a glass of orange juice to which the juice of half a lemon has been added, to be taken once or twice a day. This promotes dental, as well as general, good health.

A good reamer or electric extractor and a liberal supply of oranges and lemons at all times make it possible to serve these delicious and healthful drinks . . . easily and quickly . . . whenever you wish

Tea service, formal or informal, includes a plate of Sunkist lemon *slices* cut from the unpeeled fruit, as well as the more practical, juice-providing lemon *quarters*. If desired, cloves may be inserted in the lemon.

Grated orange or lemon rind gives tea an unusual and delicate flavor reminiscent of rare and expensive blends. Add 1 teaspoon grated rind for each 4 to 6 cups. Place in teapot with tea (any blend) and add boiling water.

Iced tea is served with a Sunkist lemon slice or quarter slipped over the rim of the glass.

For a reducing diet, lemon is especially good to replace sugar and cream with tea.

Candied Peels: (See recipe, page 8.)

Marmalades, Jams, Spreads: (See recipes, pages 9-10.)

Sunkist Menu

FRUITS, especially fresh fruits, furnish necessary and protective food elements in a most appetizing form, and should be eaten every day. Among fresh fruits available for year 'round serving are California oranges, lemons and grapefruit. These citrus fruits, moreover, are especially valuable in the daily dietary (see page 2).

Practical suggestions for including fruit in the daily menu are given below as an aid to the homemaker who plans healthful meals for her family. A good rule for her to remember and to follow is:

To serve fruit in two or more of these ways each day, being sure that oranges or lemons in fresh form are included at least once each day.

Orange juice, America's most popular breakfast service of fruit, is the ideal first course for this meal.

The customary acid-ash breakfast foods—cereals, breads, meats and eggs—while good and necessary, require the alkaline-ash balance provided by citrus fruits.

In addition, orange juice provides one of the most potent and dependable sources of the vitamin C which the body must have each day. It also stimulates appetite, often sluggish at the breakfast meal

Guide

LUNCHEON (or SUPPER) and DINNER

Fruit may be served in some form for each of the courses of the Luncheon and Dinner meals. If this form is sufficiently varied, it may without undesirable repetition even appear in several courses of the same meal.

HOUSEHOLD USES FOR LEMONS

THE lemon is the most useful of all fruits. In addition to its food value, it has many uses in the kitchen and laundry.

To Sour Milk: Lemon juice added to sweet fresh milk or evaporated milk, will sour it suitably for cooking.

Add ¼ cup Sunkist lemon juice to 1 cup milk.

To Replace Vinegar: Lemon juice may be substituted for vinegar in any recipe that calls for the latter, except pickling.

For Stewing Dried Fruits: Add a small amount of lemon juice and grated lemon rind in stewing such dried fruits as prunes, figs, peaches and so on.

In Cooking Meats: Tough meats will be made tender by adding a teaspoon of Sunkist lemon juice to water in which they are boiled. Rub steaks with a cut lemon and brush with oil 10 minutes before cooking.

For Aluminum Ware: When aluminum ware becomes dull or black, clean with a cloth dipped in lemon juice. Then rinse in warm water.

For Copper and Brass: After juice has been extracted, dip lemon rinds in salt to clean tarnished copper or brass.

For the Hands: Immediately after dishwashing, drop a little lemon juice in the palms and rub well over hands to keep them soft and white. This also removes odors such as fish or onion.

To Remove Iron Rust, Fruit or Ink Stains: Rub the spots well with lemon, then cover with salt and place in the sun. Repeat process if necessary.

To Bleach Linen or Muslin: Moisten with lemon juice and spread on the grass in the sun.

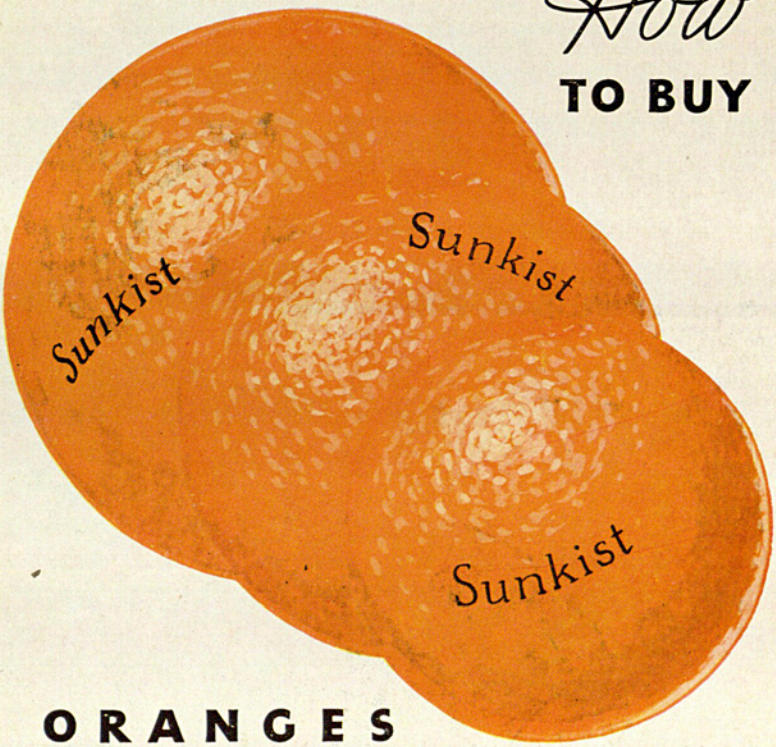
How TO BUY



ORANGES & LEMONS

THE name "Sunkist" stamped on the skin and wrapper of oranges and on the wrapper of lemons, regardless of the size of the fruit, is the guarantee of uniformly good and dependable quality. Size does not determine quality in California citrus fruits. Small fruit is equally as flavorful and juicy as the larger sizes. Judge oranges and lemons by the trade-mark, not by the dimensions.

After a thorough scrubbing, Sunkist oranges and lemons are carefully graded for quality and packed in standard boxes. Citrus fruit sizes are designated by the number of fruits to the box.

Supply and demand govern price. The thrifty housewife "shops for size" when buying oranges and lemons. Sunkist oranges are always tree-ripened. They must pass rigid maturity tests before they are picked. The color of California Valencia or summer oranges sometimes turns back to greenish at the stem end in late summer and fall months. This fruit will always prove to be fully ripe, however, and at its best for juice in these months.

California oranges and lemons are picked fresh every day in the year and are always in the market. You may rely upon them for a dependable supply and on the name "Sunkist" for uniformly good quality—regardless of size.

All Sunkist oranges are tree-ripened. Orange juice should always be freshly extracted to retain true flavor and full health value. Serve immediately after extraction since standing impairs the delicacy which freshness gives. It is advisable to chill the fruit before extracting the juice. Place oranges in the refrigerator over night for breakfast serving. Replenish the supply for the afternoon "pick up" glass of juice. Two large glasses of fresh orange juice daily contribute to maximum well being and dental health as discovered through nutritional research. Sunkist oranges and lemons are high in vitamins C and B, and calcium, so necessary for a well-balanced diet. Look for the Sunkist trademark on the skin or tissue wrapper.
